

Product Data Sheet

ABF 100

Applications: Preventative protection against mold, algae, and bacteria in porous materials.

ABF 100 is a combination of active ingredients that have the following effect: By treating porous surfaces with ABF 100 these are protected from the possible affliction with fungus and/or bacteria. The very limited solubility of the active ingredients in pure water make ABF 100 a product which is very insusceptible to weathering after the product has dried completely. Thus the surfaces are protected for a prolonged period of time.

After water damage and the appropriate drying procedures ABF 100 is an ideal conserver – especially for wood, concrete, insulation materials, etc.

ABF 100 may be used manually, by spraying, or by fogging either mechanically or thermally.

If ABF 100 is to be applied manually or by spraying it is diluted 1:9 to 1:4 with water (10 to 20% solution). The concentration is dependent upon the properties of the surface and the potential for contamination. If ABF 100 is to be fogged mechanically or thermally, apply it undiluted.

CAUTION: consult MSDS prior to use!

Standard Specifications:

Structure at 25°C: liquid
pH at 20°C: 5.0 - 6.0 as a concentrate
Density: 1.050 - 1.070 g/cm³

Shelf-Life: 2 years after first opening.

Storage: Frost free. Closed properly. Dry.

Contents (acc. to 648/2004/EG): None.

Other contents: Halogenated acid amine derivative, N, S heterocyclic compound, wetting agent, and water.

Biological Degradability: This product fulfills the criteria stated in the EU directive EC 648/2004 concerning detergents.

Article No. 96405

Packaging: Box of 4 x 5L.

Hazard Symbol(s):

Signal Word: Warning.

Hazard Statements:
H302 Harmful if swallowed.
H319 Causes serious eye irritation.
H317 May cause an allergic skin reaction.
H315 Causes skin irritation.

Precautionary Statements:

Prevention:
P261 Avoid breathing mist/vapours/spray.
P280 Wear protective gloves/protective clothing/eye protection/face protection.
P264 Wash hands thoroughly after handling.

Reaction:
P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P337+P313 If eye irritation persists: Get medical advice/attention.
P301+P312 IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell.
P330 Rinse mouth.
P302+P352 IF ON SKIN: Wash with plenty of soap and water.
P333+P313 If skin irritation or rash occurs: Get medical advice/attention.

Storage: None.

Disposal: None.

Classification according to ADR/RID:

This product is no hazardous material according to transport regulations.
