

All-Fabric Stain Protector

Applications: Stain protecting post-treatment for all fabric types.

A water-based stain protector for upholstery, curtains and textiles. This product may be used on all fabrics be it new or just cleaned. It protects from water, soil and fatty stains. Even on cotton, rayon, acetate, silk and velour. All Fabric Stain Protector contains a fluorocarbon that was developed especially for this application.

All Fabric Stain Protector is sprayed onto the surfaces to be protected undiluted (1 litre is enough for up to 10 m² area), and then brushed into the fabric using a soft brush. In order to accelerate the drying process we recommend the use of a Turbo Dryer. Otherwise the product dries in about 2 hours.

Standard Specifications:

Structure at 25°C: liquid
pH at 20°C: 3.0 - 4.0 as a concentrate
Density: 1.030 - 1.050 g/cm³
