

Doubly Active Cleaner

Applications: For the in-plant washing of all loose rugs.

It is a highly concentrated and environmentally friendly product that was formulated so that the dirty solution is pH neutral. Its slightly alkaline pH makes it suitable for all fibres. Doubly Active Cleaner may also be used for conventional shampooing or in automated washing systems.

Doubly Active Cleaner is dissolved 1:1000 (10 g in 10 litres of water) in water and applied with the shampoo method or in a rug washing system. The loosened dirt is removed through extraction or an intensive rinse in the wash cycle.

Standard Specifications:
Structure at 25°C : powder
pH: 8.5 - 9.5 in ready-to-use-solution

Shelf-Life: 2 years after first opening.
Storage: Frost free. Closed properly. Dry.
Contents (acc. to 648/2004/EG): 5 – 15% nonionic surfactants.
Other contents: Complexing agents and builders
Biological Degradability: This product fulfills the criteria stated in the EU directive EC 648/2004 concerning detergents.

Article No. Art. 27010
Packaging: Box of 4 x 5 kg.

Hazard Symbol(s):

Signal Word: Danger.

Hazard Statements: H318 Causes serious eye damage.
H315 Causes skin irritation.
