

## Energizer

**Applications:** Booster for all CEBE<sup>®</sup> carpet and upholstery cleaning products.

Energizer is an additive that boosts the cleaning power of all CEBE<sup>®</sup> carpet and upholstery cleaners. Energizer does not affect the workings of the product it is added to, since it is pH-neutral. It just boosts the cleaning power. Using Energizer makes the cleaning result even better and brightens colours at the same time.

One heaped teaspoon is added to 10 litres of cleaning solution. Energizer should always be added right before use, since its strength decreases with time.
